**Out of the Night
that covers me,
Black as the Pit
from pole to pole,**

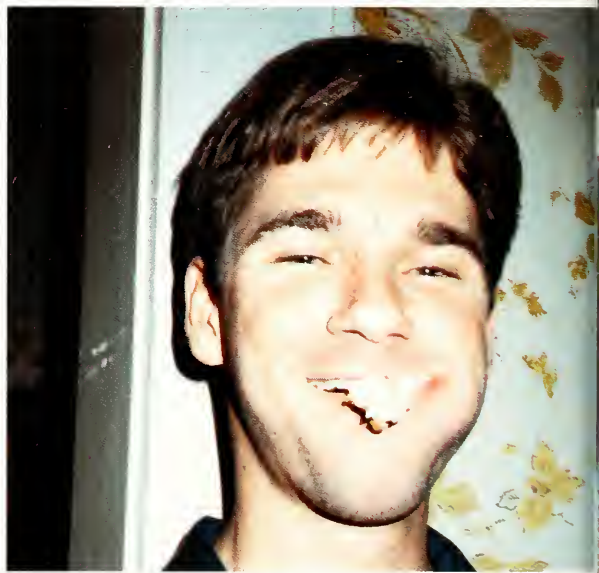

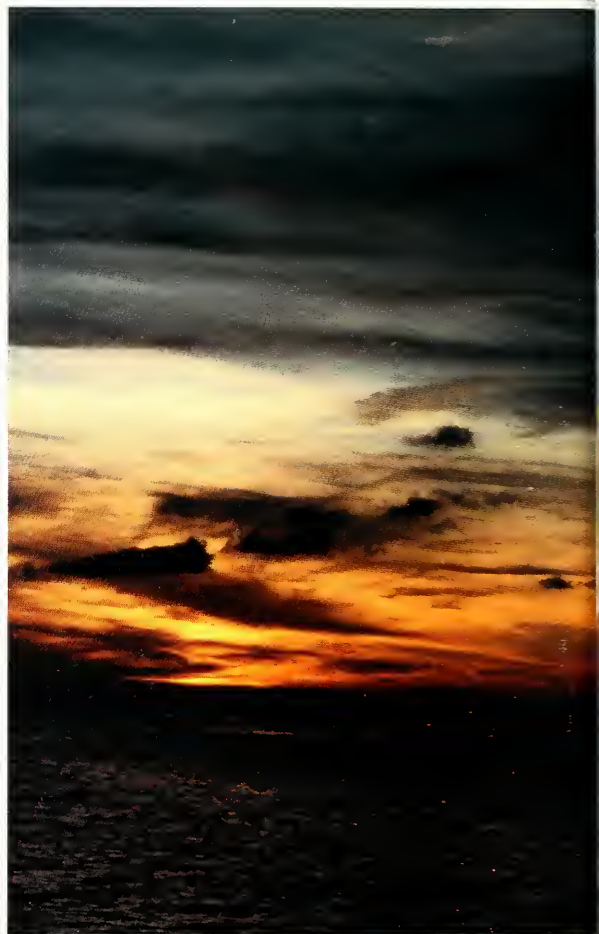

**I thank whatever
gods may be
for my
unconquerable soul.**

**In the fell clutch
of circumstance**

**I have not winced
nor cried aloud**

**Under
the bludgeonings
of chance**

GRAPHICS • MIRAGE •

**My head is bloody,
but un-bowed.**

**Beyond this place
of wrath
and tears**

**Looms but
the horror
of the shade,**

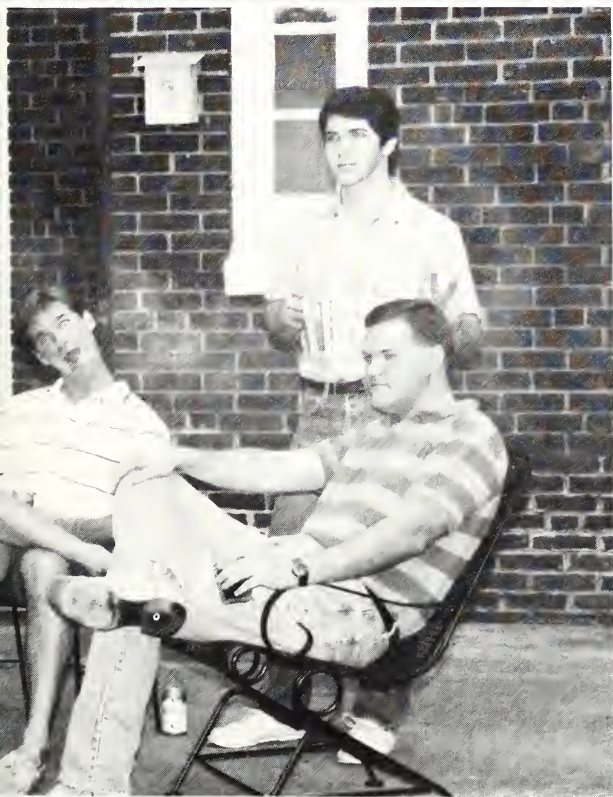

**And yet the
menace
of the years.**

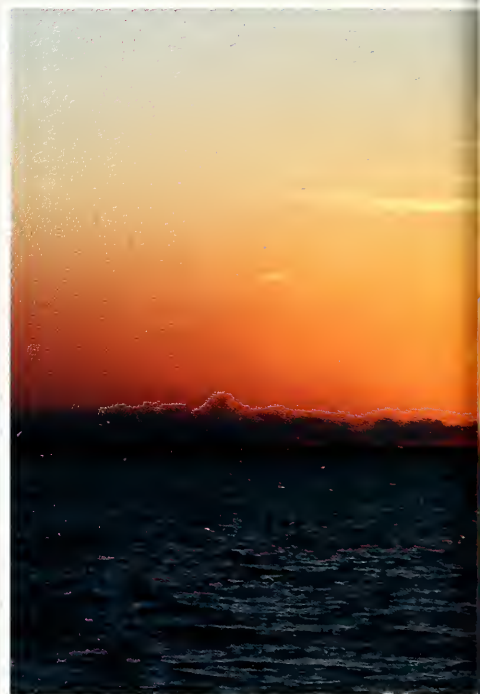

**Finds
and shall find me
un-afraid.**

**It matters not
how straight the gate,
how charged with
punishments
the scroll,**

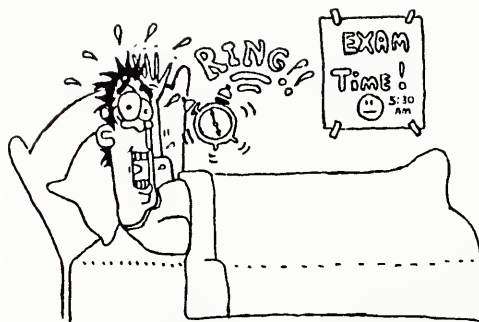

**I am the master
of my fate:
I am the captain
of my soul.**

EVENTS

CASINO PARTY

Hits of aces, jacks, queens, and kings fell on the tables as the annual LSUMC Casino Party began. Each year, thousands of chips pass hands as well as a little bit of luck and just enough "spirits".

The Shreveport Country Club created a perfect atmosphere for Las Vegas style gambling and midnight dancing. Prizes were won, chances were taken, and all were aware of the presence of Lady Luck.

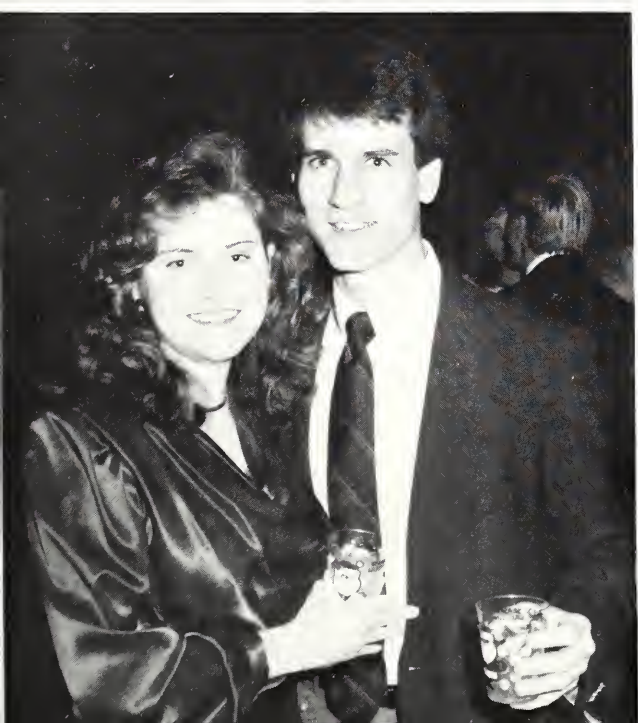

CHRISTMAS PARTY

After many weeks of hard work, a celebration was welcomed. This year it was done in grand style. The Christmas Party, an annual event for LSUMC, was held at the Bossier Convention Center with music by EXIT. The room was filled with students eager to celebrate a concentrated but well-performed semester of work before returning home for the holidays. Santa Claus even made an appearance from the North Pole — or was that Dean Williams.

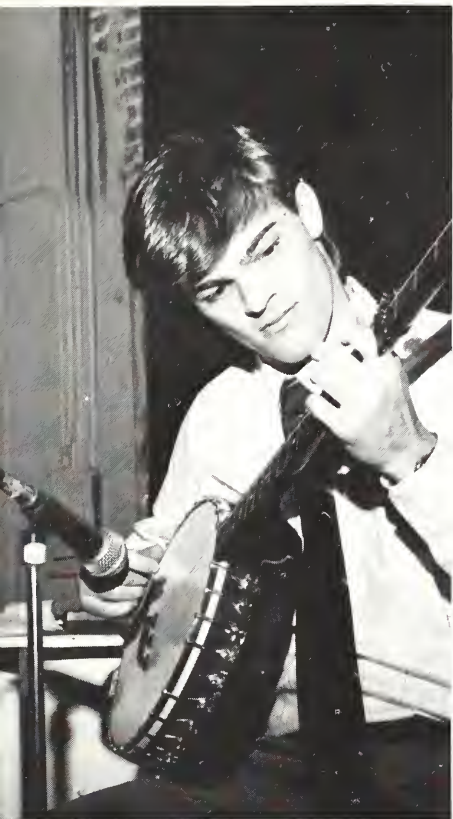

CADAVER BALL

Cadaver Ball has always been an anticipated tradition. From year to year, this function not only marks the end of gross anatomy, but it also marks a milestone for the freshmen class. It is with this function that the first year class present themselves as an accomplished part of the LSU School of Medicine. Cadaver Ball was held once again at Jodie's Place and all were entertained by the music of the Bluebirds. A traditional skit was performed by those brave enough to approach the stage in front of their classmates and their professors. The night was celebrated well and all will one day look back on this evening as a fond and fun-filled memory.

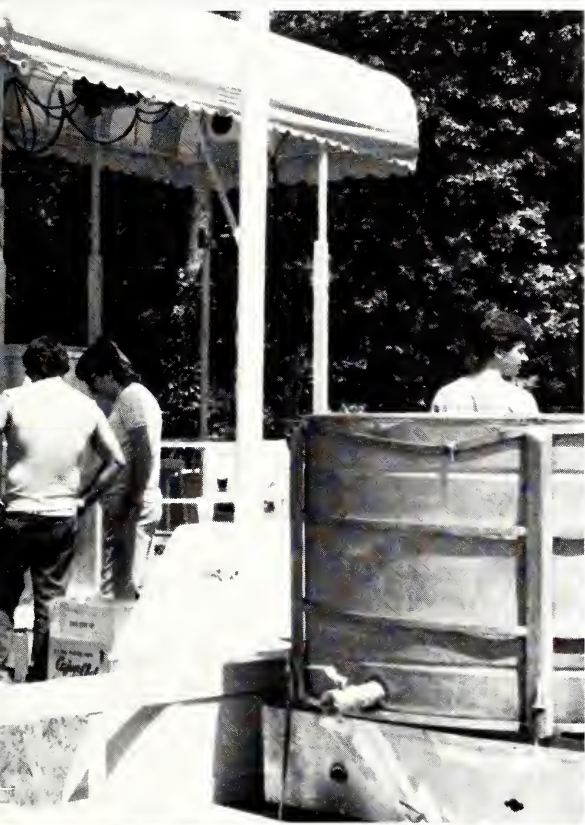

CRAWFISH BOIL

The 1989 Crawfish Boil was a smash for LSUMC students and faculty. This annual event was packed with people enjoying tons of spicy crawfish with all of the "fixxins". Beer was on tap, music was playing, and volleyball games were underway as the April sun tanned those brave enough to wear bathing suits. All in all, the crawfish were conquered, the sun was tolerated, and good times were experienced by those participating in the festivities.

PARTIES . . . PARTIES . . . PARTIES . . .

When it is study time — we are serious. When we are given a reason to celebrate we do — and with a bang. All year individual parties occur and though not all students attend all functions, each gathering serves as a source of relaxation. There are birthday parties, halloween hauntings, post-exam blowouts, mardi gras "carnivals", and "sippin' in the sun" celebrations — all topped with beer, food, and quite a bit of fun.

MORE PARTIES

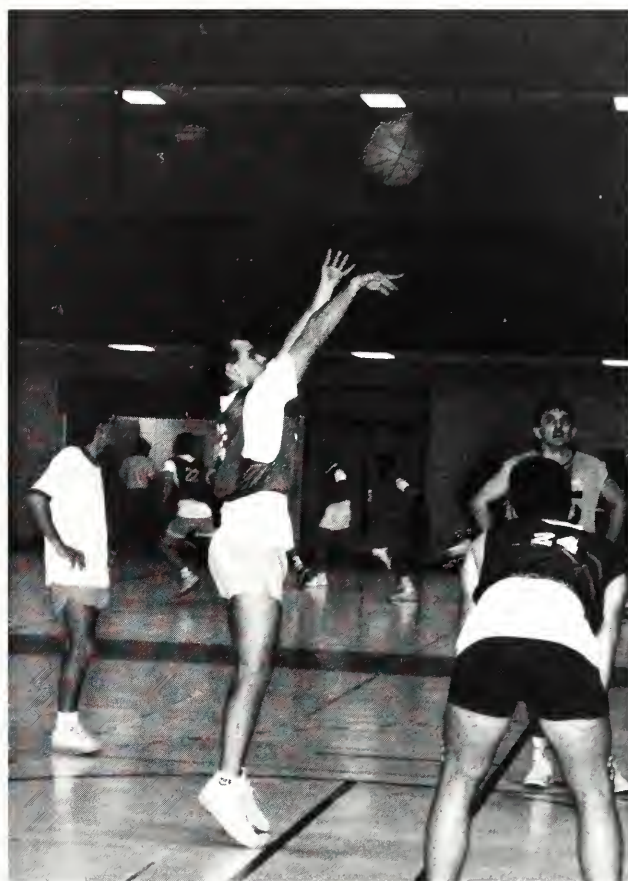

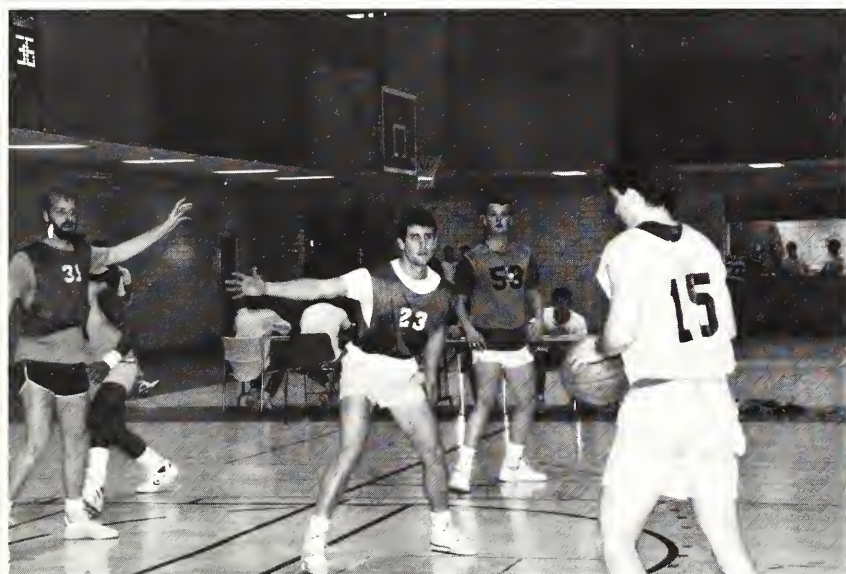

INTRAMURALS

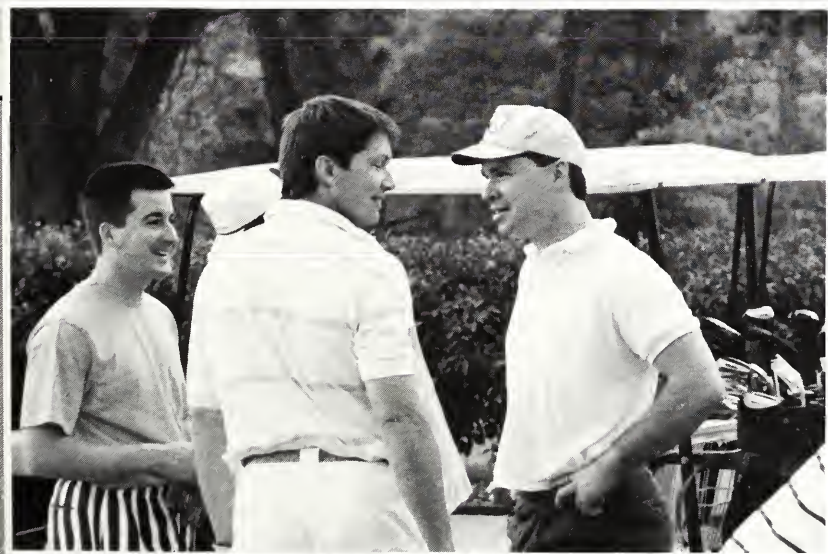

Sports have always been successful at LSUMC, and under the direction of Mark Peters, the LSUMC Intramurals was once again successful. Events included football, basketball, and volleyball tournaments. The annual spring tennis and golf tournaments were once again enjoyed by the participants as well as the spectators. Each year intramurals are an excellent source of release as well as relaxation.

INTRAMURALS

TIGER TROT

Under the direction of Jude Bares and Charlotte Singleton and with the sponsorship of the LSUMC Executive Council, the 1989 Tiger Trot was once again a huge success. Numerous runners of all ages gathered at Airline High School to compete in both 5K and 10K races. The runner participants ranged from all ages. With help from the Red River Runners, the races were begun at 8:30 in the morning. There were refreshments for all and energy sources for those who were challenged enough to run the races. Trophies were awarded, but most people came for the joy of running and competing. Hopefully support will continue for this event which not only aids the medical school but also provides an event for the community.

SAHP SPECIAL EVENTS INCLUDE . . .

. . . just about anything that involves the getting together of people, food, drink, and always, FUN. The 1988-89 school year started with the Annual Back-to-School Bash at the Kon Tiki. This ball of fun was kept rolling throughout the year as a result of the TGIF parties held at the Union and Raintree Apartment Clubhouse. The turn of Fall showed the spooky side of many prominent students, and as usual the spirits were uplifted. Although every class had its definite high points, the Communication Disorders class celebrated its 10th Annual Reunion. All of these extra-curricular activities serve to relieve the tension and stress of the daily routine.

SAHP SPECIAL EVENTS CON'T . . .

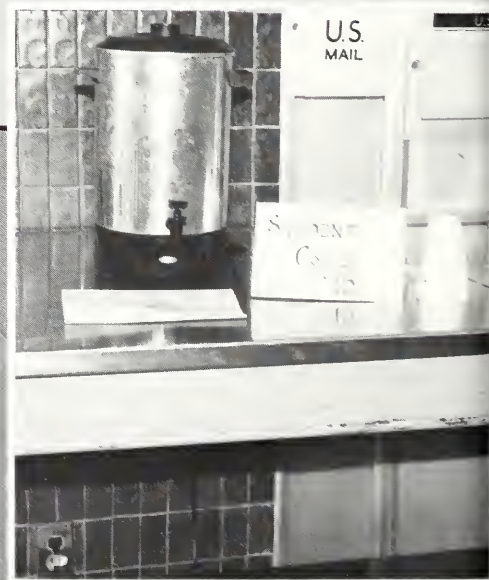

It is at these special events that the student appreciates the simple pleasures and good times of life. Whether it is a night at the Christmas Party, Casino Party, various state conventions or just relaxing in the great outdoors. The function of these activities is to allow us time and opportunity to live life to the fullest, eliciting the fond memories that we will always cherish.

BREAK TIME

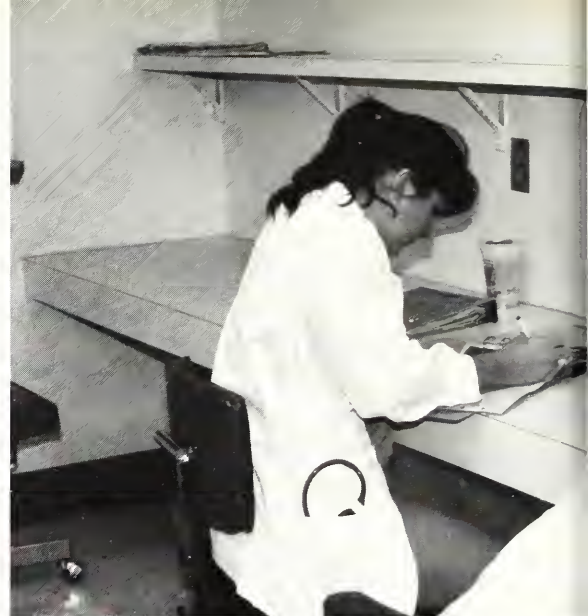

There are many alternatives to keeping the nose in the books and at break time, these "animals" can be found. From pool to video games, lifting weights to drinking coffee — all mannerisms of relaxation are good. Although the LSU coffee is bad, the company is usually good. Ten minutes of break time proves worth two hours of efficient studying. When it is time for a break, take it!

STUDY TIME

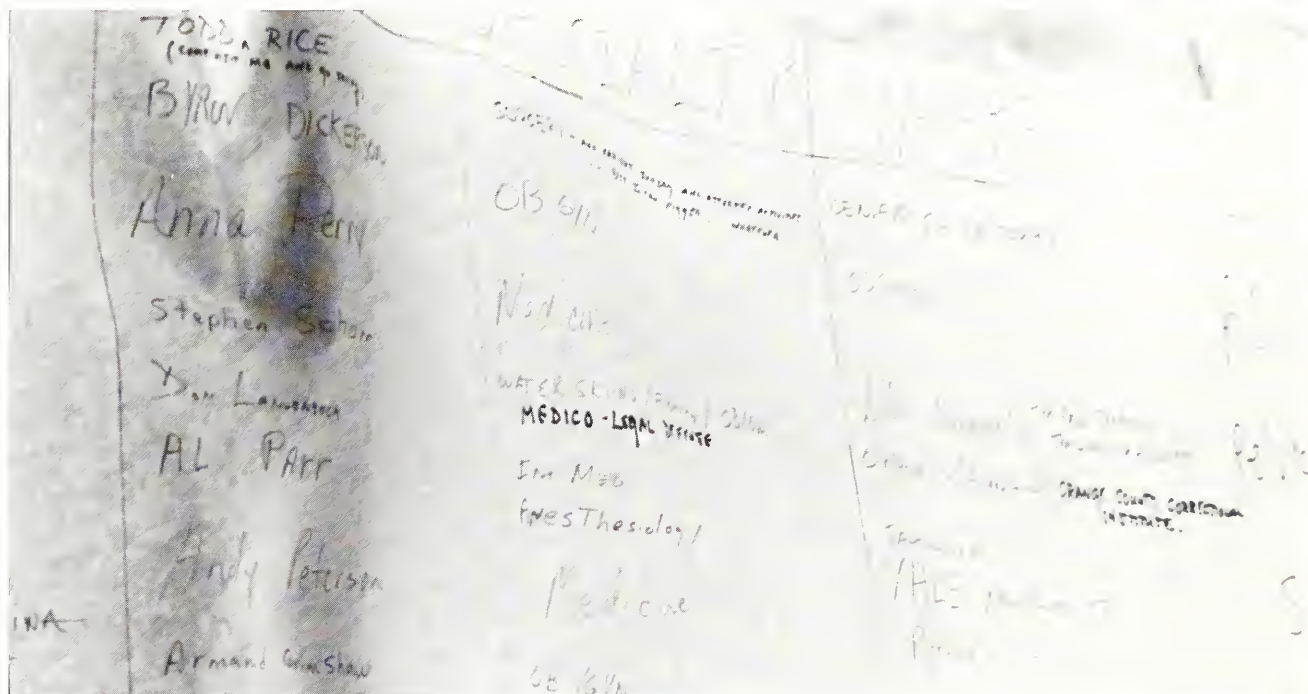

Hours of lab time, days of reading, and nights on call comprise the search for higher medical knowledge. Each precious minute is important to the total understanding of the human body system — it's function, its failure, and its pharmaceutical needs. Sometimes the days seem useless and frustrating. Others are profitable and rewarding. But all in all, efficient study time produces effective diagnosis and treatment by the student. The single reason for perseverance and more — study time.

MATCH DAY

envelopes . . . long, white envelopes . . . envelopes holding dreams, goals, and destinies — these are the instruments of anxious attitudes which existed on Match Day. As the 1989 Senior Class filled the LSUMC Auditorium, heart beats were quickened as the residency matching statements were delivered. Sighs of joy and some moments of sadness filled the air as four years of work peaked with the opening of the envelopes. This day is one all future medical students anxiously await and one all senior students celebrate when it is over.

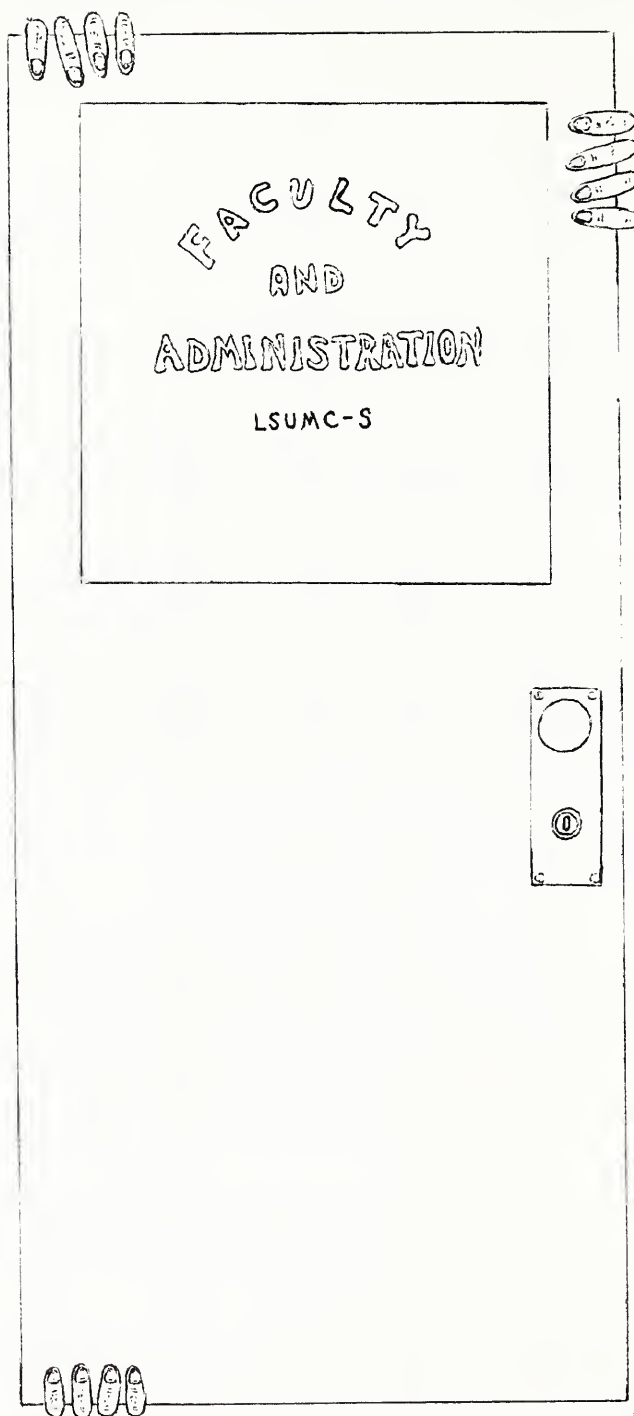

GRADUATION

Graduation days have always been joyous occasions celebrated by friends and families of the honoree, but no commencement is so looked forward to than medical school commencement. All the years of high school, college, and medical school finally are rewarded as the graduate walks across the stage and receives his Doctorate of Medicine degree. This was the same feeling as the 1989 graduates proceeded through their commencement, and it will be a day all will remember with fond and exciting memories.

CLASSES

FRESHMEN

1988-89 proved to be a busy year for the new LSUMC freshman class. Not only did voluminous gross anatomy material occupy their time, but hours were also spent cramming biochemistry, neuro anatomy, histology, and physiology. For the first time in their educational careers, National Board Exams were of great importance academically and a source of seemingly endless stress. Cadaver Ball came just in the nick of time and gave everyone an opportunity to release. As spring approached, electives were set and plans for the sophomore year were on the drawing boards. There will never be another year like the freshman year - at least we hope NOT!

SOPHOMORES

We are halfway up the seemingly insurmountable hill. During our laborious climb we have accumulated a great deal of information. It was written in the handouts, highlighted for the test, and relearned for the National Boards. It all went by quickly. No time was wasted, nor any books left to collect dust, for nothing can stop our race to the top of the hill.

JUNIORS

No more weekly exams, no more eight hour lectures, no more afternoons off, and no more spring breaks — the real world has begun.

As the clinical years of medical school were put into full swing, the juniors realized the importance of all the hours of work in the first two years of LSUMC. New experiences included Comprehensive Care clinic, nights on call, eating at LSU Cafe, and learning the techniques and skills needed to be a confident and successful physician. Numerous conferences were attended, National Board Exams were taken, and all anticipated the upcoming senior year with excitement and a sigh of relief.

ALLIED HEALTH AND GRADUATE STUDIES

SCHOOL OF ALLIED HEALTH PROFESSIONS

The School of Allied Health Professions was established by the LSU Board of Supervisors April 2, 1970. At present, the school has five departments which include: Cardiopulmonary Science, Communication Disorders, Medical Technology, Occupational Therapy and Physical Therapy. Baccalaureate degrees are offered in all departments except the Department of Communication which offers a Master of Communication Disorders Degree. Professional, didactic, and clinical education is provided at the junior and/or senior level. Certain portions of professional education are completed in affiliated hospitals and other health facilities in and out of the state of Louisiana.

The School of Allied Health (SAHP) has become an intricate part of the LSU Medical Center. The SAHP Student Government Association has representation in the Executive Council of the Medical Center. SOAP Notes, a monthly newsletter published by Student Affairs, contains information, gossip and general news about individual class activities. Students perform a variety of vital functions in and around the hospital. Some participate in highly competitive intramurals while others seem only to emerge when there is a rumor of free alcohol or food. Parties such as the Back to School Bash, Christmas Party and the not-so-occasional TGIFs help to maintain a very healthy balance of between work, study, play and play.

CARDIOPULMONARY SCIENCE • JUNIORS

The past year was one involving many new experiences and vast quantities of knowledge. Many long nights were spent preparing for the traditional grueling exams. Within a short time, we all have experienced great change both professionally and personally. One of the most important changes belongs to Sean, who is the proud father of Ian Patrick, born October 10, 1988. The other most important belongs to Lisa who is the proud mother of Anthony Michael born January 17, 1989. The spontaneous pizza parties and the wild late night parties always seemed to restore perspective of what has made this year one of great importance. This includes the birth of new lives and of new friendships.

SENIORS

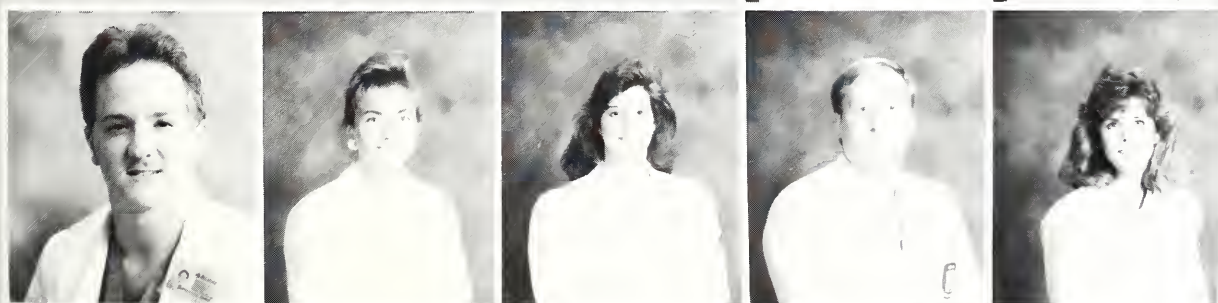

Our class can be best described as a versatile group of unique individuals brought together to share two of the busiest years of our lives. We have, in what seems a short time, changed from fact-filled, conceptual classroom students to a vital member of the health care team. As the field continues to grow, we are obtaining a more important role in the critical care of the adult, pediatric and neonatal patient. Therefore, we are called upon to devote late nights to study. We tend to compensate with late nights of partying. Who else but us could spend \$700.00 in one restaurant. Through the hard work and great fun, we have become traveling companions, co-workers, and most importantly friends.

Denise Steinmetz

OCCUPATIONAL THERAPY • JUNIORS

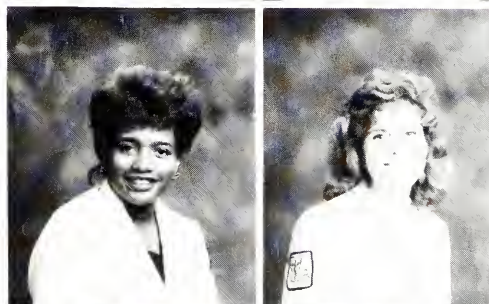

The junior Occupational Therapy class arrived here at LSUMC anxious and eager to dive into Human Anatomy and Physiology. The water got pretty deep but we managed to swim through having fun along the way. During the fall we concentrated on the Psychosocial aspect of O.T. by first taking a close look at ourselves. In the spring we continued focusing on Psychiatric O.T. through fieldwork experiences and began our study of the physical dysfunction component of our profession. The spring semester also served to prepare us for upcoming Psychosocial affiliations in the summer.

Jenny Wuller

SENIORS

After returning from summer affiliations, Pedretti became our bible as we dove into intense study of physical dysfunction. Although it was a busy semester, we always reserved a little time for R & R since we finally learned this is needed for a balance between work, play and self care. We ended our LSUMC career with six months of fieldwork.

PHYSICAL THERAPY

• JUNIORS

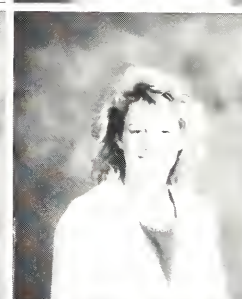

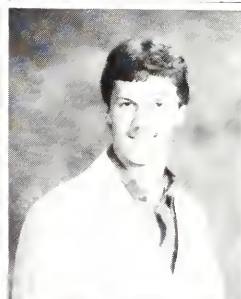

In June, we were eager to progress toward our goals of becoming Physical Therapists. The summer courses provided a foundation for the fall semester. During the fall and spring many challenging courses and clinical experience at local facilities provided an opportunity to increase our skills. Every step forward has been a challenge. Many struggles, changes and steps later we still consider the cost worthwhile to continue toward our goals of becoming Physical Therapists.

SENIORS

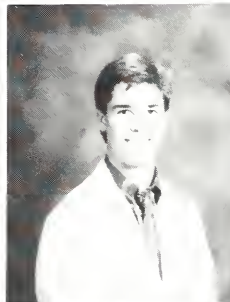

Although many long hours were devoted to study, it seems to have paid off since we are all now experts at project development and effective time management. We welcomed the juniors in the fall with a wild party. The annual Spring Bon Voyage Party serves as a great send-off for summer affiliations.

COMMUNICATION DISORDERS

C
O
M
•
D

The Master of Communication Disorders Degree Program involves teaching, service and research of communication disorders within varied multidisciplinary systems. The department celebrated its 10 year anniversary and reunion in October at the University Club. A highlight of the year was an Open House held in March for the relocation of the Mollie E. Webb Speech and Hearing Center which merged with the SAHP in 1979. There were many other student activities for 1988-89 including research poster presentations, NSSLHA picnic at C. Bickham Dickson park, Annual Graduation Luncheon, a Halloween party for Language Center children, Hot Off the Grill cookout, and the Annual Christmas Party.

MEDICAL TECHNOLOGY

Most often found behind the scenes and frequently called "the hidden profession", medical technologists contribute significantly to the delivery of quality health care. Skills are required in the application of scientific knowledge and methods in the medical laboratory. As a vital member of the health care team, the medical technologist participates in the prevention, diagnosis and monitoring of disease. Although chief emphasis is placed on the major scientific areas including Chemistry, Hematology, Immunohematology and Microbiology, many Med Techs are frequently spotted as having escaped from the laboratory, and are most always seen armed with beers in hand, obviously emphasizing the local sciences.

WANTED: College educated individuals, male or female, for exercises in mind expansion. Must be available all hours of the day and night for laboratory study. Must be analytical, curious, highly self-motivating, doggedly determined, and saintly patient. Non-conformity and ability to question authority not required but is preferred. These studies will continue for an undetermined period of time (in case your family and friends ask) until a select committee of members from the scientific community consent to their termination (graduation).

Does your financial situation require major surgery?

As your experience and knowledge in the field of medicine grows, so will your need for a sound financial institution—one that offers a complete fiscal examination.

Commercial National Bank has consistently served the local medical community and is familiar with your financial requirements.

For needs as varied as student assistance, financing your expanding practice, objective investment advice, short and long-term savings plans, personal trusts and Keoghs, look to the Medical Capital of the Ark-La-Tex.

And get a complete statement of your condition.

CERTIFIED LIMB & BRACE, INC.

**3227 Portland Ave. (at Greenwood Rd.)
Shreveport, LA 71103
(318) 636-9145**

Providing our customers with the most patient, friendly features of any facility, we offer:

- Large, private off street parking lot.
- Easy wheelchair access to entire facility.
- Full sized wheelchair capacity restrooms.
- Well lighted, comfortable measurement and fitting rooms.
- Spacious Gait Analysis area with private entry from fitting rooms.
- Neat and comfortable reception area.
- Location on City Bus Line, one block from I-20 with East/West access ramps.
- Convenient Thursday evening office hours to 8:00 p.m.

We have fully "in-house" production capabilities to provide patients, Doctors and Therapists with fast, accountable service. The hands that measure and cast our patients are the same that fabricate and fit our appliances. Our production area is neat, dust free and quiet; housing a technical support team with experience and credentials unmatched in the area.

- We are the Southwest's undisputed leader in Myo-Electric arm fabrication and adaptation — routinely fitting uni and bi-laterals of shoulder, above and below elbow levels.
- Area's only manufacturer of custom Orthotic Seating devices for true accomodation of CP, Spina Bifida and Spinal Cord injury.
- Your alternative for the full line of Orthotic/Prosthetic services you expect as well as "sports" type knee/ankle/shoulder orthoses, athletic/swimming prostheses and custom molded shoe inserts for work or play.

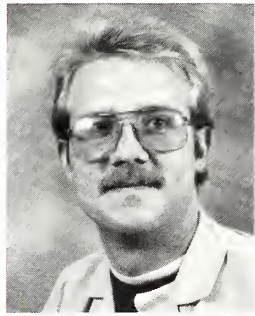

For fast, accurate service, let us be your problem solver. Certified Limb & Brace — A full service facility.
